The following is an examiner's statement of reasons for allowance:

Claim 1 and the claims which depend thereon on are allowed because the prior art does not teach or fairly suggest a sewing apparatus having a cassette mount, at least one detector detecting an operating state of at least one mechanism related with the thread cassette and a determining unit determining whether the thread cassette can be attached to the cassette mount, based on a result of detection by the detector.

Claim 13 is allowed because the prior art does not teach or fairly suggest a control program for a sewing apparatus including a cassette mount and at least one detector detecting an operating state of at least one mechanism related with the thread cassette, the program accomplishing the function of a determining unit determining whether the thread cassette can be attached to the cassette mount, based on a result of detection by the detector.

The patents to Sakakibara et al (U.S.P. 6,769,371 and U.S.P. 6,779,470) are cited to disclose applicant's prior art sewing apparatus having cassette detectors for detecting a thread cassette.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
